

**GreenStake®**

# PROFESSIONAL-GRADE BIODEGRADABLE ANCHORING STAKES

*Engineered to Hold.  
Certified to Biodegrade.*

## WHY GREENSTAKE®?

### 45% GREATER HOLDING POWER\*

As tested against standard 6" metal staples.

### COMPLETE BIODEGRADATION

Plant-based. ASTM D6400.  
No microplastics, or persistent synthetic residue.

### TOUGH & SHATTER RESISTANT

No fragments. Built for demanding installations.

### NO METAL LEFT BEHIND

No rust. No retrieval. Won't interfere with buried wire or cable detection.

### PROTECTS EQUIPMENT

No buried metal stakes to damage mowers or equipment.

### INSTALL IT. LEAVE IT.

Holds through establishment, then biodegrades naturally over time.

## NOT ALL "BIODEGRADABLE" IS THE SAME

Different standards. Different outcomes.

**GreenStake is designed for complete biodegradation, not fragmentation.**

**GOOD ENOUGH FOR DOTs.  
DESIGNED FOR EVERYONE.**

- DOT Approved
- Professional Grade
- Independently Validated

### IDEAL FOR:

Erosion Control

Landscaping

Golf Courses

Sod & Turf

Restoration

### GREENSTAKE STAPLES
